California Mail Steamers via Panama, leave New York on the 5th and 20th of each month.

Steamers, via Nicaragua, leave New York on the 6th and 21th of each month.

The Havana steamers leave New York on the 3d, 7th, 13th, 17th, and 27th of each month, and Charleston ... on the 4th and 19th.

The New York steamers of the 3d and 17th are the only ones under strict contract with government, to sail on their appointed days. Deviations are frequently made by the others, to avoid vexatious quarantine, &c.

The mail contract with the Charleston steamers is kept up the year round.

The mails for California close at the Boston post-office at 2 P. M. on the 4th and 19th of every month, to go forward by the steamers leaving New York on the 5th and 20th.

The receipt of letters at the Bangor Post Office, by these steamers, may be expected the second day after their arrival in New York.

HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors *freely*, and consequently IS DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but guaranties that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles,

Bronchitis by using One to Three Bottles,

Coughs by using less than One Bottle,

Colds by using it Two to six Days,

Bleeding of the Lungs by using less than One Bottle,

Hoarseness by using less than One Bottle;

Soreness of the Chest by using less that One Bottle,

Price $3 per bottle, accompanied by a Treatise.

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston,

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials —

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb 23, 1855

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents Samuel Cooper, Esq. of Boston, has been engaged as Solicitor and has been in that capacity in constant correspondence and intercourse with the Office. He has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has tendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, B. H. LANE, — Principal Examiners.

P. SOUTHGATE SMITH, T. R. PEALE, THOS. T. EVERETT, WM. C. LANGDON, — Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

SWAIM'S Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof of Surgery, Pa. Univ.

Valentine Mott, M. D., Prof. of Surgery, New York University.

W. P. Dewees, M D., Prof of Mid., Pa. Univ.

N. Chapman, M D., Prof of Physic, Pa. Univ.

T. Parke, M D., Pres't College Physicians, Phila.

Dr. Del Vallo, Professor of Medicine, Havana.

Jose Eourenco de Luz, Prof of Surgery, Lisbon.

J. Chipman, Member Royal College Surgeons, London.

G. W. Erving, late Minister to Spain.

Sir Thomas Pearson, Maj. Gen. British Army.

Gilbert Robertson, British Consul, &c, &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1 50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILADA."

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned strips, and a large semi circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge,

THE "GREAT REPUBLIC" MONTHLY.

To the Public, the Book and Periodical Trade, and the Press

WE have the honor to announce that we shall issue, on or about the 1st of December next so as to be in season to command the early attention of the public and the periodical trade, the *First Number of a New Illustrated Magazine*, to be called THE "GREAT REPUBLIC" MONTHLY.

It is intended to make this Magazine superior in every respect to any thing ever before issued in this country. The general scope of its character can be best understood by its name. IT WILL BE THOROUGHLY NATIONAL—IN NO WISE SECTIONAL OR SECTARIAN, and WHOLLY IMPERSONAL. It will offer to the writers and thinkers of this Union a common field where they can meet on the highest ground of contemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one covering, among other grounds, Essays, Sketches, Humorous Tales, Stories, Historical Incidents, Reviews, Critiques, Biographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Stanzas, Sonnets, Music, Correspondence, Gossip, etc. etc.

The Magazine will be profusely illustrated in the highest style of wood engraving.

The Literary department will present greater variety combined with more thorough excellence, it is believed than ever before offered to the American public in a single periodical. The following authors and popular writers are included in the list of contributors engaged

Geo D. Prentiss,	Henry Ward Beecher
Charles Swain	Thomas MacKellar
Fitz Green Halleck	H. J. Brent (Stirrup)
Cha's J. Ingersoll	F. W. Hunt, M. D.

Tho's Dunn English	Ann E. Porter
Duncan Kennedy	Lucy N. Godfrey
Rev. Newell A. Prince	Lavinia S. Goodwin
Henry B. Hirst,	Jane G. Austin

In addition to the foregoing brilliant array of American authors, there are a large number of first class writers engaged (among them some of the most distinguished of the day) who are compelled, from pre-existing engagements, or other causes, to withhold their names for the present, but who will, nevertheless, contribute frequently to our pages. We would also announce that we shall add to our list of contributors the names of other distinguished authors as soon as satisfactory arrangements can be completed.

Each number will contain an original piece of Music, composed expressly for this work.

Of the superior excellence of the Magazine in every respect and of the certainty of its permanent success, very little more need be said.

The Terms and general conditions of the Magazine will be as follows

TERMS.

THE SPEECH OF SENATOR HAMMOND, delivered at Barnwell, S. C., on the 27th ult., has attracted a good deal of attention, from the fact that he tries to dissuade the South from pushing new schemes of slavery extension, such as the annexation of Cuba, or Central America, or the re opening of the slave trade. We think one object of the speech is to quiet the apprehensions of the friends of freedom, by an apparent moderation or toning down of Southern sentiment, *so that the democratic party may succeed at the next Presidential election*—after which we might look for a revival of all the obnoxious schemes of the propigandа.—The Republicans are now strong—and growing stronger—and Mr. Hammond thinks it safer, perhaps, to yield, temporarily to the advancing power of Northern sentiment—to the end that, having beaten the Republicans, as he hopes to do in 1860, the people's party will have become discouraged, and the slaveocracy can thereafter have it their own way again.

Senator Hammond, however, has an idea that slavery has become so strong in the Union, by means of its affiliation with the democratic party, that it needs not resort to any such devices. In his speech (as epitomized by the Advertiser and Bee,) he goes on to show how slavery has strengthened itself within the last thirty years in the United States. How it has controlled the government of the country, and how, with the aid of "its allies in the North," it always will. He is generous in his praises of the Northern allies of slavery in the free States, and argues that with the united South, which they now have, they can always control the government, and he urges upon the South to be generous to those Northern allies, and to be ever ready to reward them liberally for their services in behalf of the Southern institution. He seems to understand his men; he believes that with the riches of the federal treasury at its command, the South can always purchase sufficient support at the North to render the slave power forever predominant in the National Government. In his review of the progressive advances which slavery has made in the last thirty years, he reverts to the fact that Washington, by his will, freed his slaves, thus setting an example to the South in favor of abolition, that Jefferson spoke and wrote strongly against slavery; many prominent men, following the great examples set them, became Abolitionists or Colonizationists, and among them his names Henry Clay and William H Crawford. The people of the South were divided in sentiment; many thought slavery impoverished the States, and others even went so far as to believe slaveholding a sin. But these were principally members of certain religious denominations, who were foolish enough to believe that the religion of Christ did not tolerate concubinage and the buying and selling of negro men and women. They were fanatics. This race has faded out. The church of the South, like the politics of the South, is now a unit in favor of the system, having seen the error of its ways and the heathen in of its Christianity.

The South in the last thirty years has also broke down says Mr Hammond, "the atrocious protective system," and whereas in 1828 the average amount of duties imposed by Government upon imports was rising 40 per cent, it is now less than 20 per cent., and that is to be reduced as the South becomes more firmly seated in federal power, until the Southern policy of absolute Free Trade shall become the fixed policy of this Government. And thus Mr Hammond goes on for five columns. He is for remaining in the Union *as long as the South can keep possession of the Federal Government*, and is for going out of it should they lose possession of it. The enactment of a protective tariff, or the election of a Republican President, would be sufficient cause for a general Southern stampede from the Union.—But neither of these things, in the opinion of Mr Hammond, can ever be accomplished, because the South will be and is an entire unit to oppose them, and, with the aid of its Northern allies," Protection and Republicanism will be put down, and the supremacy of Free Trade and of Southern Slavery be the permanent policy of the North American Republic.

"Hail Columbia! Happy Land!"

ENCOURAGING. We are glad to see that the Boston Courier predicts the coming defeat of the Republican party, in consequence of Douglas's success in Illinois. Its predictions are certain death—to the party which they favor. The Courier announces the impending destruction of Republicanism in Massachusetts, regularly every year.

MADAME BIACCHIANTI. The Boston Transcript says: "We are pleased to learn that this accomplished prima donna, a native of this city, whose triumphs in opera a few years since our readers will recall, is about returning to this country, as she was to leave Havre on the 25th ult. Her personal friends will hear this news with pleasure, while the musical public will gladly welcome a former favorite. Mr. Ullman must certainly secure her for his opera season in Boston."

Mr. Samuel Lawrence, of Lawrence, Stone & Co., of Boston, who fled to Europe just before the financial explosion of that concern, last year, has returned to this country, and is living in Baltimore.

THE BOLDEST BANKING SWINDLE YET. We learn from the New York papers that the swindlers succeeded in getting off about $30,000 of the bills of the New England Bank, Fairmount, Maine," which has been referred to in the telegraphic reports, (there being no such bank and no such town in Maine.) The Courier and Enquirer says that a bank note engraver of Wall street, nine months ago received an order to print five hundred thousand dollars in the bills, from one H. T. Downing, professing to belong to Portland, Maine, and executed the order. It is also stated that Mr Calhoun, of Exchange Place, recently paid away $4000 in these bills; Mr. Wood, broker, of Pine street, $1660 in them for wine. A Mr. Tompkins got rid of $2000 in them; a Mr. Jackson $15 000, and John B. Dye an unknown sum in them. Even a publisher of one of the Bank Note Reporters was swindled to the tune of a thousand. Singularly enough, neither the originator of the frauds, nor their confederates, appear to have been discovered—or if discovered, they had not been arrested at last accounts. The exposure of the fraud was made in the way. One "Mr. Jethro Wood Underhill," hailing from Cumberland County, Pa., put up last week at the International, and handed to the clerk to deposit in the safe $400 in these bills. A day or two, afterwards he sent an order to the clerk to pay $18 to the bearer of it. The bills were all $10's and $20's, and the clerk paid one of the $10's on the order and changed another from the money in his cash drawer. A few hours later the bill was returned by "the bearer," as worthless. The whole package was then examined and found to consist entirely of bills on the New England Bank.

The police were then called in and Underhill was arrested and taken before Justice Kelly, to whom he stated that he had received them from Mr. Wilcox, broker, at 14 Wall St. in payment for 25 acres of western land — Whether or not the statement be true, has not as yet been ascertained, and the magistrate held him to await examination.

New Publications.

THE MONTHLY LAW REPORTER, for November, is received from the publishers, Messrs. Crosby, Nichols & Co., Boston. It has a leading article in favor of a general bankrupt law, written in view of the fact that a bankrupt bill, reported in Congress at the last session, from the Judiciary Committee, was referred to the next session, which is soon to commence.

The legal reports in this number are numerous and interesting, and embrace the new decisions of the United States and State Courts, and also of Foreign tribunals.

The Law Reporter is published monthly, and contains regularly 84 pages of matter, (50 pages extra in the present volume.) Reports are given regularly from the English Courts, as well as the American, and translations from French reports.

Price of the Reporter $3 per annum.

THE TARIFF QUESTION. "Ion," the generally well informed Washington correspondent of the Baltimore Sun, says it is not believed that the President will recommend an increase of duties, or a change from ad valorem to specific duties, as has been suggested, either upon iron or any other article. The Secretary of the Treasury, it is said, will represent in his report points going to show that the present tariff will produce revenue enough for the proper expenditures of government upon the restoration of the ordinary conditions of trade.

ARREST OF CAPT. DOBSON OF THE ALLEGED SLAVER ISLA DE CUBA. The Brig Harriet H McGilleray arrived at New Bedford on Sunday from Fayal, and brought as passenger Captain Jonathan G Dobson, late master of the barque Isla de Cuba, which vessel arrived at Boston a few weeks since and was seized, and remains in custody of United States Marshal Freeman at that port, upon representation of her crew that she had been fitted out as a slaver. The Isla de Cuba was fitted out at New York in September last, and subsequently put into Fayal, where the fact that she was intended to proceed upon a slave voyage to the coast of Africa first became known to the crew. Offers of increased wages there made to them were rejected, and it was safely returned to Boston in charge of the mate, leaving Capt. Dobson at that place.

Kerosene or coal oils are now manufactured in Boston and New York, to an amount of about 15,000 gallons per week, with demands for more than 50 000 gallons. It is stated that an arrangement has been made to secure the patent of Mr Young of Scotland, under certain purification patents, promising to obtain for it a degree of popularity which will give it a monopoly of the market for illuminating purposes.

MORE PROPHETS. A correspondent of Harper's Weekly speaks of two little chess players, residing in Fayette County, Ky. They are a boy and girl, aged 11 and 13 years respectively, and blindfolded can beat any of the most experienced players in that section.

A very singular circumstance happened to a young lady in Cincinnati, a few nights since. The evening, or rather all the day previous, she had been complaining of a severe pain in the head and eyes, more particularly the latter. Judge of her astonishment and that of her friends to find, the morning following, that during the night she had become completely cross-eyed.

A MURDERER'S CONFESSION. A few years since a citizen of Alabama committed a cruel murder, but on trial for the crime he escaped, owing to some link wanting in the evidence. Public opinion was against him, and he soon left for Mississippi. It is recently related of him that, after having experienced the most terrible agony for months, he procured a barrel of whiskey, and excluded himself from the society of men, where ordinary drops, he plunged into the deepest and most thorough state of intoxication, drinking, it is said, a quart of the "fire-water" at a draught. In this miserable condition he lingered through two or three months, and finally died in the most intense mental agony, calling upon the bystanders to take away from his bedside the victim who had so long haunted his memory and agonized him in his dreams.

Various Items.

MAIL DELINQUENTS OUT WEST. His mail belonging to a party, the stage-driver from Brownsville, Ark., to Little Rock, left ten sacks of mail matter in Mrs Gaskill's corn-crib. A local paper thinks this may account for the non-delivery of letters.

HE WASN'T AN OLD SETTLER. The following is good enough to bear repetition:

"Mr Jenkins, will it suit you to settle that old account of yours, to-day?" "No, sir; you're mistaken in the man. I am not one of the old settlers."

A CONFEDERATION FOR BAD ROADS. An unlucky traveller in the Green Isle asked an old countryman rather gruffly why the Irish miles were so confounded long. "You see, yer honor," replied Patrick, "the roads is poor, and so we give good measure."

A RARE STATEMENT. "I speak within bounds," as the prisoner said to the jailor.

GOLD IN RAGS. A New York beggar being drunk was taken to the station house, where, upon searching him, $240 in gold was found snugly sewed up in his vest.

AXES BEFORE THE FLOOD. In Sumpter, Texas, after sinking a well through 23 feet of limestone, the diggers came upon a piece of pine timber, hewn on six by twenty inches square, and bearing visible marks of the axe.

DOING IT UNCHEERFULLY. The Rome (N Y.) Sentinel, "goes it up" in the following good humored manner:

"By such election returns as we have received we are *inclined* to the belief that the county and State have gone *slightly* Republican! The late hour our returns close, leaves us no time for comment; besides, we are otherwise too busily engaged, as we have our bundle of clothes under our arm, with a cotton pocket handkerchief full of doughnuts swung over our shoulder, and are just leaving on foot for Salt River. Good by!"

THE GREAT BANK ROBBERY. We find in the Delaware County Gazette the following particulars relative to the robbery of the Delhi Bank, last Sunday evening:

On opening the Delaware Bank, of this village, on Monday morning, it was found that the lock to the inner door of the vault could not be unlocked, and a smith was sent for, who had to cut the heads off the bolts before it could be opened. When access was obtained, the vault was found empty. The robbers had by false keys entered the banking room from the rear, moved the wood box, and sawed a hole through the floor, and then crawled under the floor some ten feet to the side of and under the door of the vault, then undermined the stone work so as to gain an entrance. Taking all they wanted, they returned in the same way, after slipping a nail in the lock in such a manner as to prevent the bolts from moving. On coming out they carefully replaced the boards sawed out, and put the wood-box in its proper place. Not the least suspicion was excited until the vault door was opened. About $33,000 is missing—$25 000 of which is in the bills of the bank, $8000 in gold and silver, and the balance in other money.

A PRINCELY ESTABLISHMENT. The domain of the Duke of Devonshire, at Chatsworth, England, is equal to one of our counties in extent. The park is eleven miles in circumference. The principal garden contains 25 acres. There are thirty green-houses, each from 50 to 75 feet long. We went into three or four containing nothing but melons and cucumbers. One peach tree on the glass wall measures 45 feet in width, and 15 in height—the largest in the world. The grape-houses, five or six in all, are 600 feet long, and with such grapes! We saw pine-apples weighing ten or fifteen pounds each. One green-house had only fruit—another only mushrooms. But what shall be said of the great conservatory, filled with every variety of tropical plants?—It is one of the wonders of the world. It covers an acre of ground, is 100 feet high, of oval shape, and cost $500,000. It is heated by steam and hot water pipes, which in all are six miles in length. It requires 600 tons of coal per year. We saw in it banana trees twenty feet high, with clusters of fruit—sugar cane, coffee trees, bamboo, and in short almost every tropical plant. Several of the palm trees are 50 or 60 feet high. The smoke of the immense fire underneath is carried in pipes underground to an outlet in the woods. The coal is brought in a tunnel 800 yards under ground.—*Cor. N. Y. Independent.*

"SKIN-ISLATION" THE SUPREME COURT.—This is the term applied to a proposition to arrange the districts of the Supreme Court in such a manner that the labors of the Judges shall be equalized, that there shall be the largest number of Judges where there is the largest amount of business. The fact that so reasonable and natural a proposition should be opposed at all, shows the sectional character of the opposition. The constitution of the Court is not objected to because it gives a majority of the Judges to the slave States, but because the business before some of them is more than they can attend to; yet some of the Democratic party complain that any arrangement of the circuits, any division of the business that do's not give a majority of the Court to the South, is "sectional." In the view of these men, there is nothing truly "national" but slavery. *Providence Journal.*

SERVANTS AND HELPS. One of those 'English muffs, ye know,' came over into the 'States' the other day from Canada. He took lodgings at an inn, in a bordering village which shall be nameless. He had dinner; and among those who sat at the table with him was the waiting maid, whom he designated as 'servant;' but he received an indignant correction from the landlord. 'We call our servants, Sir, *Helps*. They are not oppressed; they are not Russian serfs.' 'All right,' said the 'Bloody Britisher,' 'I shall remember.' And he did: for in the morning he woke the whole house, by calling out, at the top of his voice, which was like the 'rending of a strong rag: 'Help! help! help!—water! water!' In an instant every person equal to the task rushed into his room with a pail of water. 'I am much obliged to you, I am sure,' he said; 'but I don't want so much water, ye know.'—'I only want enough to shave with!' 'Shave with!' said the landlord; 'what did you mean by calling 'Help! water!' we thought the house was a fire.' 'You told me to call the servants 'Help,' and I did: did you think I would cry *water* when I meant *food*?' The explanation, it should seem, was satisfactory.

PEPPER. Not many miles from Boston two sisters by the name of Pepper are employed in the same establishment. One of them has red hair, and goes by the name of Red Pepper; while her sister, with black hair, is known as Black Pepper. A male relative is also employed in the same place, and is called Pepper and Salt—his hair fairly representing that noted oyster-saloon mixture.

IMPRISONMENT FOR DEBT IN ENGLAND.—During the year 1858 upwards of eleven thousand suits and six hundred females were imprisoned for debt in England. A few weeks since two men, who had been companions of debtors' prisons for eleven and six years, were discharged from custody. The former was 64 years of age.

LOCAL AND MAINE NEWS.

The cold term taken by the weather on Wednesday night continued through the day yesterday, and last night became sharp' wintry' weather—quicken ag the blood and reddening the noses of pedestrians—and causing all loiterers abroad to pull foot for comfortable quarters within doors. We look for relaxation, however, before winter sets in.

M. ANDRIEU'S GREAT PAINTING. It will be seen by a notice in another column, that Mons Andrieu, so well known to our citizens, will open his magnificent painting, called the "Rake's Progress," at City Hall, on *Monday evening next*. It is no copy of Hogarth. The design is entirely new; and from the testimonials of distinguished gentlemen, we are led satisfied that it is a work of no ordinary merit.

ORANGES. Messrs. A. Lee & C. Boyd have a fine invoice of West India fruits, by Sch. C. C. Billings, just arrived from Matanzas.

UNIVERSALIST CONFERENCE AT ORONO.—The Universalists of Orono and vicinity had a religious Conference Meeting on Tuesday and Wednesday of this week. Sermons were preached by Rev. Messrs. Leonard, of Waterville; Battles, of Bangor; and Knowlton, of Oldtown.

Meetings for prayer and social worship, in which the clergy present and laymen participated, added to the interest of the occasion.—At the close of the services on Wednesday, the church in Orono, consisting of between forty and fifty members, received the fellowship of the denomination, from the Rev. Mr Hodges, of Kenduskeag, in a very appropriate, eloquent, and thrilling address. After which, the church and large numbers of others united in the communion of the Lord's Supper. The whole occasion was one of deep and heartfelt interest to all present, and especially to Mr. Barton, the resident minister, and his parishioners. The Universalists of Orono are behind no Society in that beautiful village in sustaining the institutions of religion. S.

ALL SECTIONS TO GAIN BY IT. In a recent letter to the Portland Advertiser, Rev J C Fletcher, who represented that paper at Aroostook, says in regard to the proposed railroad:

If the road be built, Portland will be the gainer as well as Bangor. The east and the west are equally interested in this matter, and all local jealousy must be dismissed. There is one thing to be considered, viz. the connection in some way or another with the valley of the St Croix. The Aroostookers must have their fish and other articles, which could reach them most easily from Eastport and Calais. Houlton, at a straight line, is less than seventy miles from Princeton, the terminus of the Calais, Baring and Lewy's Island Railroad. Now this road might extend to Lincoln, or to some other point of the railroad which is to be built from Bangor to the Aroostook. Thus the people of the west as well as those of the north and east will be accommodated. All portions of Maine will be linked together.—There will no longer be the forbidding sentiment for eight months in the year—or the dreaded long stage routes, separating the different divisions of the *Bangor* State. You will then be one people so far (and this is a great deal) as communication is concerned.

Aroostook is filling up. She is within 60 hours of Boston. Her climate is not so cold as was thought, and her fertility exceeds belief, until one has looked with his own eyes. Presque Isle, Fort Fairfield and other portions are growing up with school houses, churches, the newspaper, (long live Bro Hall,) and all the 'appurtenants' of New England. It is the West with good roads, nearness to market and a homogeneous people. May prosperity continue here!

A POOR BUSINESS FOR KID BOOTS. In Portland, on Tuesday, Ellen O'Neal, for larceny of a pair of kid boots from the store of James Cole, was sentenced to thirty days in the County jail, and Mary E Welch for the larceny of a pair of kid boots from the store of Messrs Bell & Elder, was sentenced to thirty days in the County jail.

MARINE LOSS. Brig Flora, built at Newcastle in 1852, went ashore at Nassau, N P, about Oct 25th, and is a total loss.

CHANGE OF PRISONS. John Hale, who escaped from the Maine State Prison last Spring, was last week brought before the Supreme Judicial Court of New Hampshire—at a session held at Dover—on a charge of stealing a horse and carriage of Mr B Ham. Hale pleaded guilty to the charge, and was sentenced to four years in the New Hampshire State Prison.

FEMALE SHOEPEGGERS are getting plenty and bold in Portland. The Argus says one of them, recently arrested, is only 17 years of age.

PORTLAND FEMALE CHARITABLE SOCIETY.—The legacy of $1000 left to this Society by the late M P Sawyer, Esq. of Boston, has been paid into its treasury, according to a recent report—notwithstanding a mistake in the will, as to the name of the Association. So says the Argus.

ONE BRANCH OF "SMALL MANUFACTURES."—Mr Freeman Barker of Augusta manufactures, during each summer, about 30,000 pairs of *heads for wash tubs*, for the New York market. The lumber thus profitably used is of a description that would otherwise be of little value.

A BOLD ROBBERY. On Wednesday evening, at about ½ past 5 o'clock, a young man by the name of David Drinkwater was passing up Pearl street, in Portland, and when just above Oxford street, he noticed a man standing under a lamp post. Soon after he passed, the man stepped up and gave him a blow which knocked him down, and for a moment rendered him insensible. On recovering himself he found that his outer coat had been cut through, his watch guard severed, and his watch gone. His face was somewhat bruised from the blow and his fingers cut by the knife. Considering the early hour, and the number of passers by, this certainly is about the boldest robbery of which we have heard.

MARINE.—We regret to learn that Mr Levi G Crossman, of this city, left his residence on Stone street, about 4 o'clock P M, on the 1st inst, in a feeble state of health, and has not since been heard from. His friends are fearful that he may have met with some accident, and will be grateful for any information concerning him. He is about 45 years of age, has dark hair, and had on a black frock coat and pants, plaided vest, and black overcoat.—*Portland Transcript.*

STEAMBOAT COLLISION. *Vessel run into and sunk. Loss of Life.* The Steamer Eastern Queen on her passage from Boston to this river on Tuesday evening, 9th inst, at 11 o'clock when 30 miles off Boon Island, came in collision with the Schooner Caroline Stone of Hampden—113 tons—E Boynton of Orrington master, from *New York for* Bangor, with corn and flour for Sidney Thaxter of that city, and cut into her starboard side just abaft the fore rigging, so that she filled and rolled over upon her beam ends in a very few minutes. At the time of the collision the steamer was running S E, and the schooner S S W, the wheel of the latter hard to starboard and the wheel of the steamer supposed to be hard to port. The schooner carried four men all told. The Captain, who was on deck and upon the lookout at the time, with one man, jumped aboard the steamer; another man was taken off by the steamer's boat, and the remaining man, who was at the wheel, was lost—in what particular way is unknown.

The name of the lost seaman was Arthur Turner, of Bucksport; those saved, in addition to the Captain, are Eben Hutchings of Hampden, and Phineas Nickerson of Bangor.

The Captain of the schooner, from whom we have obtained our facts, says he had a good light at the end of the jib-boom, that he saw the steamer fifteen or twenty minute s before the collision, that the Portland boat had just passed him, and that it was not so dark but he could distinctly see a vessel, which carried no light, along side, he did not change his course at all until he saw plainly that the steamer would come in collision, and then he gave the order to put the wheel hard to starboard. He has noted a protest and taken the other necessary steps to give him such redress as the law may provide. The Captain was part owner of the schooner, had papers and upwards of $100 in gold on board of his own money, and is now left penniless. He and the surviving man will leave here in the two o'clock train for up river.—*Bath Times, 10th.*

[The cargo of the Caroline Stone consisted of 600 bbls of flour, and 1500 bushels of corn, fully insured in Boston.]

We inadvertently stated that an injunction had been granted on the Atlantic Bank. It should have been that an application had been made for an injunction, and that a hearing in the case would be had to-morrow. Meantime we trust no holder of bills will part with them at a discount—for they will all be redeemed at the counter of the Bank.—*Portland Adv.*

We understand that Rev. Mr. Tapper received 25 persons, last Sabbath, in full connection with the Methodist Church of this city; fifteen were males and ten females.—*Rockland Press.*

LAUNCHED. From the yard of Messrs. White & Conner, in Belfast, on Saturday, the 6th inst, a splendid white oak ship of 1150 tons, called the "Charlotte W White." She is owned by Messrs. White & Conner, and Capt. A J Ross of Belfast, who will command her. She is bound for Hampden to load with a cargo of ice, thence for New Orleans.

Launched, at Rockland on the 6th inst, a very superior double decked Hark, called the "Oraville" of about 600 tons register. She is intended for the general freighting business and is owned by Messrs Farwell & Farnsworth, the builders, Wm. H. Crockett, who will command her, and others.

For the Whig and Courier

Lines to Mrs. E. H. S.

"She was here when she was a little thing, and was always into mischief. I don't see as she's changed."

Hasn't changed? Time has told many a story her lines are marks deep,
And the wrinkles on my brow are proof that he hasn't been idle;
I see my cap strings as I look in the old glass by my side,
And push away the old gray locks I've so often tried to hide
And I have a hearty laugh, to myself, as I bring the past to mind,
To find they think I haven't changed—Ha! ha! ha!
They're growing blind

Hasn't changed? Here in the chimney corner so my easy chair I sit,
And idly lying in my lap is a stocking partly knit
It must be that I haven't changed, for if friends have told the truth,
I was not *over* fond of work in the early days of youth,
I loved to roam in the forests then, in the forests dreary and lone,
And I'd rather roam there now than work, though my childhood's hours have flown

Hasn't changed? If they could see me now, I sadly am afraid
They'd find Time had wrought changes in their friend, the quiet old—*lady*,
Though I fear their wondrous love for fun hasn't grown a bit the less.

That she hasn't changed in that respect I really must confess,
And many a scene is brought to mind of days long since gone by,
And, though a smile may play around the mouth, yet a tear drop dims the eye

They tell me one loved spot is changed, that the Homestead is no more.
The cedar trees no ev will dance on the old red farm-house floor,
But the birds will sing as they used to sing, the willow trees wave their hands
The bower on the site of that dear old spot where the friends of my childhood played
Though I may seem changed to others, to *this* I'm still the same
I'll own I'm changed in some respects, though I haven't changed my——

Trying to Sell a Diamond.

The Bucyrus, Ohio, Journal relates the story of a farmer, in that county, who found one day a beautiful specimen of quartz rock, which had all the appearance of a diamond. He took it to a jeweler in Bucyrus, who, by the way of a joke, told him it was a diamond, and offered him ten thousand dollars for it. The farmer supposed it was worth more money; he had read of the Koh-i-noor, which is prized at millions, and refused. He took it to Pittsburgh, and a noted jeweler there told him that he did not know how much it was worth, but no house in the city was able to purchase it. This completed his infatuation. He took it to other jewelers, who pronounced it no diamond. He also took it to Philadelphia and New York. The Journal thus describes his adventures here:

Confidently he walked into Ball, Black & Co's. the eminent jewelers, and demanded an interview with the proprietors. It was granted, and our friend was ushered into a private room, when he coolly turned the key in the door, and to the infinite surprise of Ball, Black & Co., informed them that he had in his pocket untold wealth. Ball, Black & Co. congratulated him, and politely requested him to inform them what earthly interest that fact could be to them. He answered nothing, but slowly drew from the breast pocket of his vest, the stone, and asked how much it was worth.—Ball, Black & Co. answered that in a country where stone was scarce, it would be worth so much a peck, they had really forgotten the exact sum, but if it would be any accommodation, they would send and inquire, and wound up by asking what his business was with them. "Business!" he gasped, "why to sell this diamond." They told him they had no desire to invest in, that peculiar style of diamonds, and without attempting to conceal their merriment, bowed him out. At Tiffany's, and all the other leading houses in that line of trade, he met with the same success, and finally determined that the jewelers of New York, as well as those of Pittsburgh and Philadelphia, were in league to swindle him out of the diamond; and so he determined to go to Europe with it, and among the brokers of London and Paris find a market for it. But fortunately, just as he was on the point of embarking, he met with a merchant from Bucyrus who knew him, and who finally succeeded in inducing him to forego his European tour for the time being, at least, and bring him to his family. He still believes the stone to be a diamond, and will, no doubt, start soon upon another wild-goose chase in pursuit of it.

SIX GENERATIONS. On Wednesday last, in West Roxbury, a boy was born who can count more living ancestors, probably, than any other person in Massachusetts. He has a mother—a grandmother aged 40—a great grandmother aged 58—a great-great grandmother aged 79—and a great-great-great-grandfather aged 97. But the most singular part of the story is that all but the old gentleman were born in the same house, and same room, and he says he should have been, but for a visit of his parents to Boston.

NOROMBEGA FISH MARKET.

BICKFORD RETURNS HIS PROFOUND thanks to the public for their generous patronage for the past thirteen years, during which time he has not grown stale, but only put on the finishing touch. As he has turned over a new leaf, to those who have paid their dues he gives the right flipper of fellowship, while those in arrears are requested to shell out and not continue their scaly line of conduct.

Bickford will still continue the management of this famous stand, and keep the hooks hanging and the marbles graced with the best that swims, besides the choicest preserved specimens of their species, among which may also be found

Fresh Cod *Smoked Herring*
Frozen Halibut, *Tongues and Sounds,*
Smoked Salmon, *Nagua and Fins,*
Smoked Halibut, *Pickled Fish,*
Dry Codfish, *Lobsters, &c &c*

FINE OLD ENGLISH DUN FISH

Choice Family Mackerel,

From Newburyport, the best ever brought into this market, will be supplied in skids from five to one hundred pounds.

OYSTERS.

The establishment is now in regular receipt of the best SHELLED OYSTERS, for family use, which will be supplied on the most liberal terms.

A continuance of public patronage is solicited, and no pains will be spared to serve customers promptly with the very best.

Has on hand a large assortment of

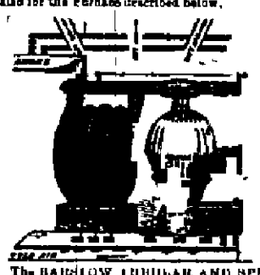
Cooking, Box and Parlor Stoves,

Of all kinds and sizes, among which is the celebrated

BAY STATE COOKING STOVE

Which continues to maintain its high superiority over the numerous articles recently introduced to the public, claiming to be *improvements over all others* This Stove is recommended to all those who prefer facts, which have been established by long practical experience, to mere advertising puffs based only on fiction. This stove has the smoothest and best castings of any now manufactured

A DIPLOMA was awarded at the State Fair of 1857 in this city, for he above Stove, and also for the Furnace described below.



The BARSTOW TUBULAR AND SPIRAL FURNACE, the *VERY BEST FURNACE EVER MADE*—which for the simplicity of its parts, which are very few and nicely adjusted, and their adaptation to their several purposes, the ease with which the fire can be kindled and extinguished, and the ashes sifted without difficulty, and obviating dust about the cellar, cannot be excelled. So complete are they, indeed, that no chance whatever is desirable in them, and they do not require to be patented in England or France, as there are no Furnaces used in either country, but open grates for burning coal.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington (under the Act of 1837.)

76 State St., opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

...

From Sept. 17th 1857 to June 17th 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water proof this is remedied. By the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Manufactured by D. C. LINCOLN, *Bloomfield, Me.*

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person with a jack knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the best premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of Albert Noyes, Central Street, Bangor, where I shall remain for a few weeks. Town rights for sale.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices.

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts a lb

For Indentures and Agreements, 40 cts a lb

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York.

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steam ships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and *not elsewhere*. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS.—One Copy, One year, $2 00. One Copy, Six Months, $1. Five Copies Six Months, $5. Ten Copies, Six Months, $8. Ten Copies, Twelve months, $15. Fifteen Copies, 12 Months $22. Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions. Letters should be directed to MUNN & CO., 128 Fulton Street, New York.

Messrs MUNN & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements. aug24

CENTRAL HOUSE,
